Communication tools

Vocaroo : an audio recording tool or a audio feedback tool was introduced to the teachers

(Reference Video: https://youtu.be/IqXDqmfv46M)

Content Tools

Content tools like CK12 was shown as a demo and the advantages were shared

(Reference Video: https://youtu.be/Dn2hA6I-V_k)

- ● Canva for education was discussed and the basic features of canva were shown as a demo.

(Reference Video: https://youtu.be/1RQkr58IRMo)

- ● Visme, a similar app to canva was introduced and teachers were encouraged to use either one of them.

- Ted Ed was introduced to search simpler, easier and topic related videos.
- Animoto was introduced to make short videos and invites to students.
- A similar app called Inshot was introduced to make videos easily and share with students.

Community learning tool.

- Teach-a-roo was introduced to teachers to learn and share from the community.

Challenges faced in the training:

- Certain applications were blocked by the school IT department.
- Some teachers hesitated to use the applications and tools since the apps required access for their data.
- Some teachers could not use some apps because they were using Mac OS.

   Support required from the School:

   We request the school to look into it and unblock the apps in order to eliminate inconvenience during further training sessions.

Queries :

- A teacher wanted support on how to navigate in kahoot. The facilitator guided the teacher to use kahoot effectively and clarified all the challenges.
